

InfraGard

Partnership is our key resource

The Federal Bureau of Investigation's (FBI) priority programs share the common goal of protecting the nation's critical infrastructures and key resources against threats and attacks. In support of their mission, Bureau teams including Cyber, Counterterrorism, Counterintelligence, and others rely not only on seamless collaboration and dialogue within government, but also with private sector and academic partners. This exchange of expertise, strategy, and actionable intelligence with the FBI and among partners is pivotal to mitigating cyber threats and dismantling criminal activity and terrorism, and is at the core of InfraGard's mission.

Thousands of members, one mission: securing infrastructure

The FBI's InfraGard Members Alliance is an information sharing and analysis effort combining the knowledge base, and serving the interests of, a wide range of private sector partners who own, operate, and hold key positions within some 85 percent of the nation's critical infrastructure. With thousands of members nationally, InfraGard's subject matter experts include business executives, entrepreneurs, military and government officials, computer professionals, academia, and state and local law enforcement; each dedicated to advancing national security.

While the FBI gains an improved understanding of the threatscape and a rich source of intelligence provided by the InfraGard organization, members are extended access to a host of information and assets that enable them to play a key role in securing infrastructure. In addition, members who utilize program benefits are better equipped to protect their investments by identifying, prioritizing, and mitigating vulnerabilities, developing incident response plans, and enacting the most current security best practices.

InfraGard Member Benefits

Access to InfraGard's Secure Web Portal: www.infragard.org

- Comprehensive suite of sensitive but unclassified FBI, Department of Homeland Security (DHS), and other federal, state and local threat intelligence products and daily news feeds
- Access to iGuardian, the FBI's cyber incident reporting tool designed specifically for the private sector
- FBI accredited website with 24/7 help desk and secure messaging promotes communication among members

Timely Intelligence Briefings and Analytic Products

- FBI and DHS threat advisories, intelligence bulletins, analytical reports, and vulnerability assessments in real time
- FBI and other government agency presentations to InfraGard chapters at member events

Unique Networking Opportunities

- Special Interest Groups (SIGs)
- Peer-to-peer collaboration across InfraGard's broad membership
- Information sharing and relationship building with FBI and law enforcement at all levels

Training and Education

- Free or discounted local seminars and conferences
- Security awareness training programs from FBI, DHS, and others
- Training discounts from SANS Institute, The Center for Information Security Awareness, and others

Membership Requirements

- U.S. citizen, 18 years or older
- Consent to an FBI security risk assessment and periodic re-certifications
- Notify the FBI of any pending criminal matters
- Sign and adhere to a Confidentiality and Non-disclosure Agreement
- Agree to adhere to InfraGard Code of Ethics
